

## Ontario Student Against Impaired Driving (OSAID)

OSAID chapters operate in secondary schools throughout the province. They all share the same purpose and operate in the same way:

**Students teach their peers about the dangers of impaired driving.**

A chapter is a group of students who work together to raise awareness about the issues. They plan and organize events, projects and campaigns. They operate with the school's permission and with a staff advisor who does just that - advise. The work, the driving force comes from the students.

If you are part of a group of students who want to bring OSAID to your school you have already taken the first step. You've got a desire to help to make things better. It's just a case of finding out the best way to go about it!
